

Key Question

5. Objective: Demonstrate your skill at preparing a five-slide presentation, using presentation software .
Presentation software: Word Perfect Presentations, Power Point, or Open Office Impress.

Intended Target Audience of this presentation: *the students in the Co-op Construction Class*

Purpose & Content of this presentation: inform students about construction materials

Step One: Select ONE of the following construction materials:

A] Steel - Key Concepts

Ferrous metal Alloy Ductile Galvanized
Blooming Mill Hot & Cold Rolling
Uses in Construction

B] Aluminium - Key Concepts

Non-ferrous metal Weight, Colour, & Durability
Rolling Drawing Forming Extruding
Uses in Construction

B] Wood - Key Concepts

Soft & Hard Wood Grading & Grain
Plywood Hardboard Particleboard
Waferboard Composite Strand Board
Uses in Construction & Structural Purposes

Step Two: Research the Material you have selected. Make sure you have information on each key concept. You may wish to include appropriate images. Use a minimum of two sources and accurately record the sources with your notes. Save your notes in a ***EBT40 project folder that you have created.*** Notes will be submitted to your Co-op Construction Instructor for evaluation.

Step Three: a) Compose the slide show using Word Perfect Presentations, Power Point, or Open Office Impress. Save the presentation in a ***EBT40 project folder that you have created.*** **Export** a copy of the ***finished the presentation*** as a **PDF**. **The PDF will be saved** in the ***EBT40 folder.***

b) Use the following template to compose the slide show.

c) You may be asked by your Co-op Construction Instructor to use your slide show in a presentation to your class.

Information template for each of the slides

Add illustrations, such as clip art, where you feel they would enhance the presentation.

Slide 1: Title Slide - *Name of your selected construction material**

Slide 2: Text: _____ * is _____ !

Bulleted List 3 (key concepts about the material)

-
-
-

Slide 3: Text: Other characteristics of _____ * includes..... .

Add an illustration /diagram.

Slide 4: Text: An important quality of _____ * is..... ..

Add an organizational chart and insert appropriate key concepts.

Slide 5: Text: Uses in Construction include

Add an illustration.
